PHILLIP VALLENTINE TOBIAS (1925-2012): LIST OF PUBLICATIONS

- This is an edited version of Phillip Tobias’ office publication list.
- If papers in refereed journals have been published verbatim in a second peer-reviewed publication the subsequent publication is referred to after the primary citation.
- When papers in peer-reviewed journals or edited volumes have been reprinted in collections of papers intended for student use (i.e., as “textbooks”) these have not been included.
- Book forewords are only cited for the first edition.
- For articles in both English and Afrikaans that have the same citation, only the English version is included.
- Entries in Phillip Tobias’ office publication list that relate to non academic lectures/talks have been excluded (e.g., manuscripts of speeches at school speech and prize days)
- Encyclopedia entries for individuals are included in “BIOGRAPHIES and OBITUARIES” (i.e., other biographies, formal obituaries, remembrances, etc.)
- Previous attempts have been made to assemble a formal list of Phillip Tobias’ publications. See the “published works” of Phillip V. Tobias in From Apes to Angels: Essays in Anthropology in Honor of Phillip V. Tobias. G. Sperber, ed. (1991) New York: John Wiley & Sons, pp. 315-341. Many of PVT’s publications (plus a list of his publications – see above), are available in Images of Humanity: Selected Writings of Phillip V. Tobias. (1991) Ashanti Publishing, pp. 1-431.
- I have made an attempt to assign Phillip Tobias’ books and peer-reviewed publications to these broad subject categories: Anatomy Teaching (An), Archaeology (Ar), Genetics (G), History of Paleoanthropology (H), Human Biology (HB), Morphology (M), Paleoanthropology (incl. paleoenvironment, paleopathology, sites, taphonomy, etc.) (Pa), Paleoneurology (Pn) and Systematics (S).
- When more than one subject category is listed for a publication they are listed in alphabetical order, not necessarily in the order of relevance.
- When publications have a co-author, or co-authors, Phillip Tobias’ name is in bold.
- Please, if you notice mistakes or any other inaccuracy, please email bernardawood@gmail.com and we will rectify it.
BOOKS (AUTHORED and EDITED)

[This letter was submitted for publication in September 1980. It was not published by the *S. Afr. Med. J.* for political reasons, on instructions of the Medical Association of South Africa. Belatedly, it was published by the *S. Afr. Med. J.* in June 1997, in an account of “The unpublished letters on Steve Biko” by the editor, Daniel C. Ncayiyana, in which the latter described the “concerted effort on the part of the top officers of the Medical Association of South Africa to suppress correspondence submitted for publication in the *SAMJ* that was critical of MASA’s handling of the Steve Biko affair”.
